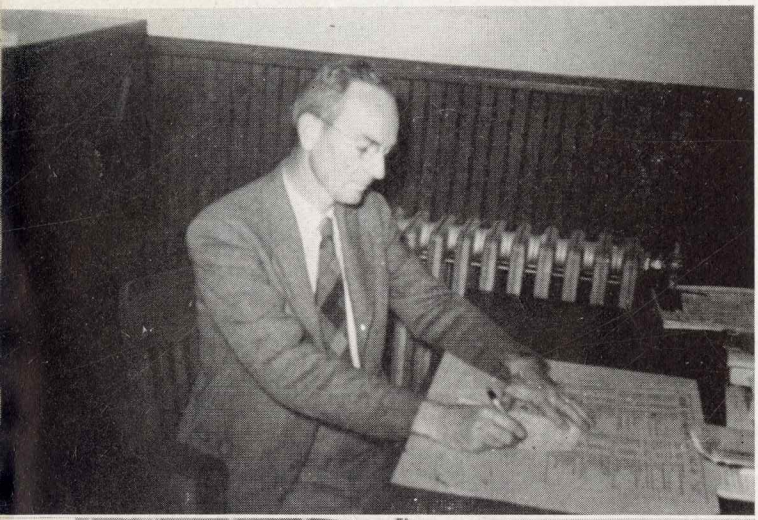
FOREWORD...

It is with pleasure that we, the Senior Class of '48, present this third issue of *We, the Students*. We hope that it will give to our fellow students an interesting account of their '47-'48 school year and to our parents and friends an interpretative picture of some of the outstanding features of our school. For us, this book will be a graphic reminder of our most eventful school year.



MR. S. H. HURT, the principal of the High School, came to us from Frisco City at the beginning of the 1947 school year. Through his leadership, the school has made excellent progress.

DR. M. L. ORR, head of the Education Department of Alabama College, is director of the High School. Through his friendly interest in the work of our school, he is responsible for much of the rich program which is offered us.

MR. P. B. SHAW, as Shelby County Superintendent of Education, has a direct responsibility for the success of our school. We appreciate his interest and assistance in helping to make our school the best possible.

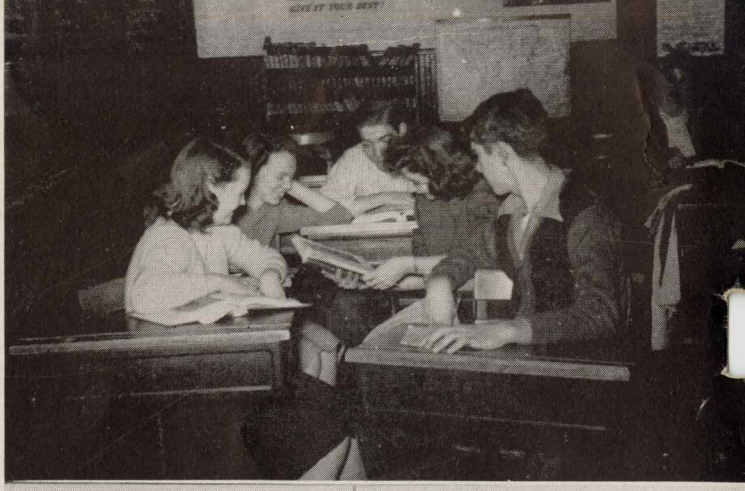
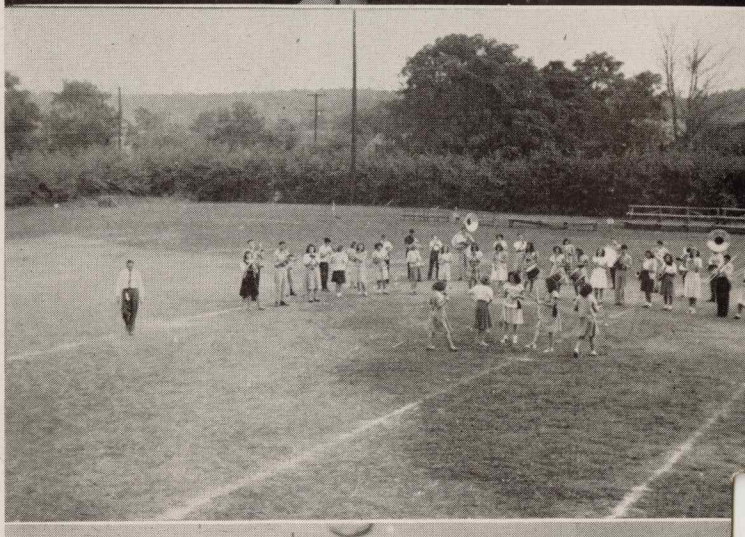
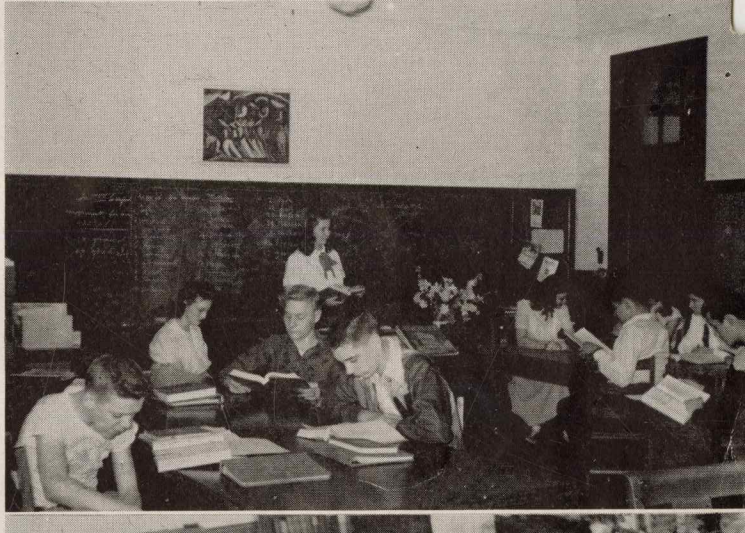
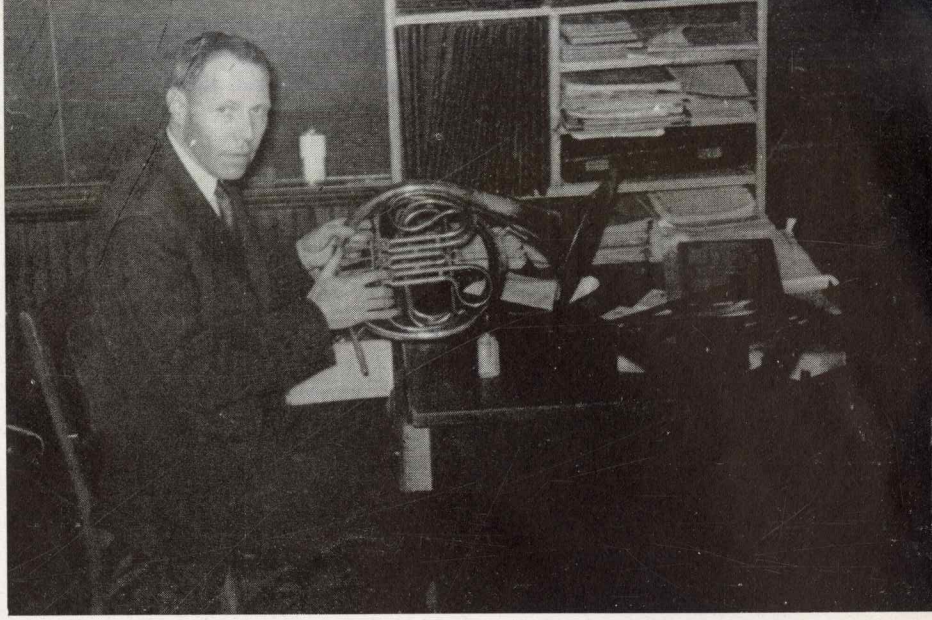
Montevallo, Alabama









MR. VICTOR T. YOUNG

DEDICATION

It is with sincere appreciation that we, the Senior Class of 1948, dedicate this third volume of our school year book to Mr. Victor T. Young.

Since Mr. Young became director of music in our school five years ago, the department has broadened its scope to make music available to every student. Mr. Young's philosophy, that any interested boy or girl should be able to study music, band or choral work on the same basis as he would any other course in school, has helped to provide many students with fine musical training and has given the school an excellent band and glee club.

In addition to providing music experiences for the students participating, it has also been Mr. Young's policy that the music department make a contribution to the school and community. Each year the band and glee club give a number of joint programs and both or either performs frequently for various community groups. The band has also helped to build morale on the athletic field by playing for football games.

In recognition of his fine contribution to the students interested in music and to the school and community, we are happy to give Mr. Young our top place of honor this year.

THE GLEE CLUB

Our Music Department offers many opportunities to all students. It is composed of two main sections: instrumental and vocal. The band, in turn, is sub-divided into an advanced band, a beginning band, and "The Serenaders", the high school dance band.

At the head of the Music Department is V. T. Young. Students entering school are given training in band or singing for a period of a semester or more. At the conclusion of his time they are gradually transferred to the "A" band or glee club.

In addition to the regular music courses offered, Miss Claire Ordway of the college music department teaches a string class.

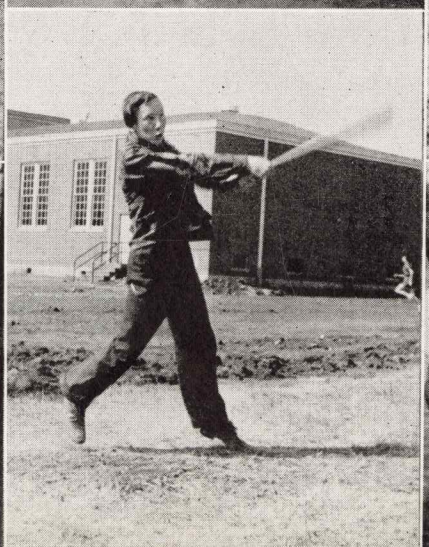
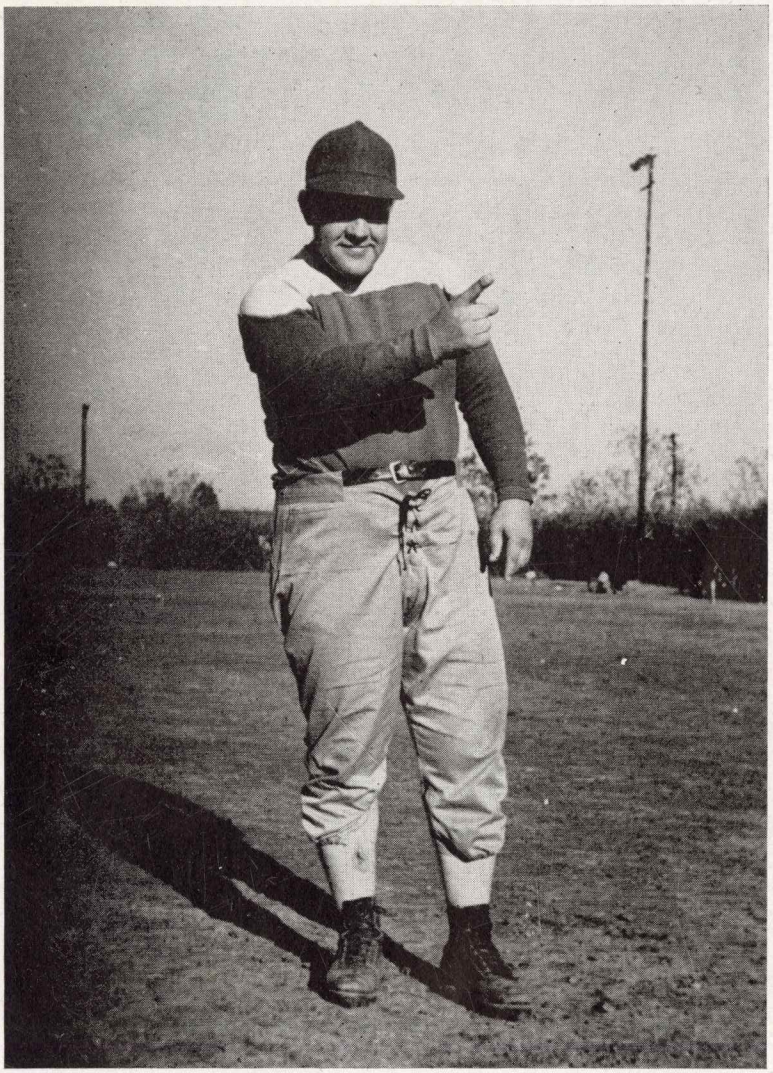
BOYS' *and* GIRLS' PHYS. ED.

Under the direction of Miss McCauley, girls in the Physical Education Department have a valuable course in indoor and outdoor sports. The most popular outdoor sports include volley ball and baseball. These are enjoyed on sunny days. On rainy days the girls play basketball and learn modern dances.

All boys not participating in intra-mural sports take advantage of the various sports and games offered by the Physical Education Department. Under the direction of Coach Fisher, the physical education program helps to build bodies, promote health, and encourage clean habits. The boys enjoy various sports and activities including football, baseball, basketball, and volley ball.





COACH THERON FISHER

ATHLETICS

Coach Fisher was born in Sparta, Tennessee, on November 8, 1910. He attended Rison High School in Huntsville where he participated in all types of sports. After graduation in 1931, he entered Birmingham-Southern College, receiving his B.A. degree in 1935. While in college, Coach Fisher lettered in baseball and football. He made All-Dixie tackle in 1932 and again in 1934.

After graduation from college, Coach Fisher taught at Ensley, Frisco City, Greenville, LaFayette, and Dadeville before coming to Montevallo. Since he has been in Montevallo he has made a fine contribution toward developing the right kind of spirit in athletics and physical education. He has done much in working up the interest of the boys in an all-round program of physical education from the standpoint of fair play and has set a fine example of sportsmanship for our school as a whole.

He is married and has two children, Barclay and Elain.
